

INDUSTRIAL PLASTIC FABRICATIONS & CHEMICAL HEATING SOLUTIONS FOR THE METAL FINISHING INDUSTRY

FIELD LABOR RATES

Includes travel time. All other conditions and expenses that apply to field operations are not included. Rates include setup, tear down, and any site delays which are not the responsibility of PWF.

Straight Time (Up to & including 8 hours per weekday).....	\$1,200 per day per man
Weekday Overtime, Saturday & Sunday.....	\$1,400 per day per man
National Holidays.....	\$1,800 per day per man

SITE VISIT REQUIRING SHAUN OR DWIGHT TO BE PRESENT

Any site visit that requires Shaun to be present will be charged additional fees. Rates are for both travel and in-plant days (up to 8 hours per day). Rates apply to any site delays or travel delays which are not the responsibility of PWF. All other conditions and expenses apply as with standard field operations. (Some jobs require more than one person for testing and/or installation. In those specific situations we will ask for a designated helper from your organization, if one cannot be provided we will bring another person from PWF – additional fees will be charged.)

Straight Time.....	\$1,400 per day
Weekend Time.....	\$1,500 per day
National Holiday Time.....	\$1,750 per day

(If our technicians work over 8 hours in one day, overtime rates will apply)

ADDITIONAL EXPENSES

- Airfare, baggage fees, parking fees, transportation to and from airport (i.e. taxi, bus or other vehicle)
- Rental vehicles, insurance, mileage & fuel.
- Hotel expenses. No more than 2 men per room. A standard hotel for PWF employees is a Holiday Inn or equivalent for comfort & security while traveling.
- Rental tools &/or equipment as needed to complete job or repair.
- Materials, parts & cleaning supplies used on the job site &/or at our shop to clean tools after field project.
- ALL PARTS are ordered for your specific installation, no parts are included in any of this pricing.
- Shipping expenses of tools, products and/or parts.
- Fuel for generators.
- Meal expense is \$60.00 per day, per man.
- Driving expenses for the truck– mileage at IRS Standard Rate
- Driving expenses pulling a trailer – add \$.25 to IRS Standard Rate

INDUSTRIAL PLASTIC FABRICATIONS & CHEMICAL HEATING SOLUTIONS FOR THE METAL FINISHING INDUSTRY

FIELD SERVICE CONDITIONS

Work Area and Equipment Area must be clean, dry, and free of all debris and hazardous chemicals. All service must be accessible within 50 (fifty) feet of work area.

Customer will supply, at your expense:

- 110V Electrical Service
(Min 20 Amp breaker. As many as our crew may need.)

For Plastic Work Only:

- 220V Single Phase Service
(Min 20 Amp breaker, Max 30 Amp. Depending on job, more than 1 hookup may be required.)
- Compressed Air with ¼" NPT Connection & Air Hose.(Air supply must be rated at around 150 PSI.)
- Generator (If Needed - 15,000 Watts Per Extrusion Welder Needed On The Job.)
(PWF has a generator to run 1 extrusion welder for small projects, if needed, at \$200.00 per day.)

* These needs will be worked out per job. On short travel jobs, PWF can supply electrical cords & air lines. These are difficult to carry on flight jobs.

Customer will supply all site-specific or specialized equipment, at your expense:

- Tools and Equipment
- Personnel Protection Equipment
- Safety Equipment
